Contact with eyes may cause mechanical damage.
Contact with skin has no effects.
If eye/skin contact with hot product occurs, obtain immediate medical attention.
Thermal decomposition products inhalation may irritate respiratory system, eye irritation.

**Inhalation**
No hazard in normal use of product.
In case the molten substance vapours penetrate the respiratory airways, do the following:
Immediately move an exposed person to fresh air at once. Keep warm and at rest. If there is respiratory distress give oxygen. If respiration stops or shows signs of failing, apply artificial respiration. Get medical attention.

**Ingestion**
Wash out mouth with water and give plenty of water to drink, provided person is conscious. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs naturally, have the exposed person lean forward.
Get medical aid.

**Skin contact**
There are no risks in normal industrial use conditions.
If molten material comes in contact with the skin, do not apply ice but cool under ice water or running stream of water. DO NOT attempt to remove the material from skin. Removal could result in severe tissue damage. Seek medical attention immediately.

**Eye contact**
Rinse immediately eye with plenty of low pressure water for at least 15 minutes.
Remove any contact lenses. Consult a physician if required.
